

# Shed Buying Checklist

Use this checklist before purchasing your shed to avoid costly mistakes and make sure your future office is functional, comfortable and worth it!

## Size & Layout

- Is your shed large enough for your desk, chair, storage, and any other office equipment you might need?
  - Have you accounted for insulation and wall thickness?
  - Is the ceiling height comfortable enough for standing?
- 

## Structure & Flooring

- Pressure Treated floor joists?
  - Thick, durable flooring?
  - Solid framing?
- 

## Lighting & Windows

- Enough natural light?
- Window placement practical?
- Door includes window? (if wanted)

## Materials & Exterior

- Quality siding (LP SmartSide or similar)?
- Roof durability
- Weather resistance

*The Guys* BUILT IT  
ANYWAY

## Delivery & Placement

- Ground is level and prepped?
  - Access for delivery truck?
  - Placement location planned?
- 

## Upgrades Worth Considering

- Extra height added
  - Additional windows and/or extra door
  - Upgraded door
  - Electrical outlets & wiring installed
- 

## Budget Reality Check

- Cost of shed vs upgrades
- Additional costs, ie. electrician, insulation, etc.
- Emergency buffer included
- Plan for a/c and heating
